ERIK JØRGENSEN

The finest furniture leathers

The Fredericia Leather collection is a suite of leathers selected for their exemplary quality and responsible origin.

From surface finish to colour range, the leathers presented in this card are fine-tuned to complement the Fredericia and Erik Jørgensen product ranges, both visually and in material tactility.

All leathers are free of allergenic substances. The tanning processes are kept in enclosed systems to minimise local environmental impact.

Across the Fredericia Leather collection the raw hides are guaranteed to be from European livestock, primarily from Germany, Sweden and Denmark.

512 Olive

Vegeta

90 Natural

Organic

906 Mocca

Organic

A purely vegetable tanned semi-aniline leather where the raw hides are traceable to certified organic cattle from farms in Denmark and Sweden. The leather has a water based protective surface. Visible marks and and variation in the surface coming from a free-ranging animal life is to be expected in the surface as a natural character of this leather. Fully vegetable tanned in Sweden. Organic Content Certification.

Vegeta

A serene, uncoloured leather with a refined touch. This leather is produced from the absolute top selection of hides. Discrete marks of animal life demonstrate the material's authentic origin. Vegeta has a natural open-pored texture, making the leather highly breathable. With no protective layer, Vegeta is sensible in use. The leather acquires a unique patina and darkens over time. European raw hides, fully vegetable tanned in Italy. Blaue Engel Eco-Label.

Nubuck

Nubuck is a nubuck leather with a warm and charming look, made from the finest European bull hides. A full-grain aniline hide has been lightly sanded to obtain an exclusive matte effect. The velvety soft touch of this nubuck leather is unparalleled by any other article. European raw hides, chrome tanned with Scotchguard protection in Italy. Blaue Engel Eco-Label.

Max

This luxurious full-grain aniline leather has a pleasant touch and a natural open-pored texture. The leather is highly breathable and comfortable with a smooth surface and tight structure giving the leather a sophisticated elegance. Max is made from the absolute top selection bull hides with discrete visible marks of animal life and an honest natural surface. European raw hides, chrome then vegetable tanned in Italy. Blaue Engel Eco-Label.

Trace

Trace is a vegetable tanned semi-aniline leather made from Scandinavian raw hides. The natural and honest character of the hide is cherished in this leather, allowing for visible marks of animal life as a token of respect for the material's natural origin - such as ingrown scars, colour variations and other surface irregularities. The leather is slim and elegant, with a full-grain structure. Fully vegetable tanned in Sweden.

Primo

A classic full-grain semi-aniline leather with a characterful surface structure, made from the best bull hides. Thanks to a precise protective layer, the leather retains a comfortable touch with good breathability, while being durable in use. European raw hides from Scandinavia and South Germany, chrome tanned in Italy. Blaue Engel Eco-Label.

Omni

Omni is an elegant semi-aniline leather made from strong, European cattle. The full grain surface has a harmonious and regular structure and provides a pleasant and comfortable touch. The leather has a fine pigmentation, which makes it very user friendly with good protection against dirt and light, while being durable in use. European raw hides, chrome tanned in Italy. Blaue Engel Eco-Label.

Vice

This pigmented furniture leather is made from European cow hides. The leather surface is corrected with an even grain pattern embossment. Vice is an extremely durable leather and easy to clean, making it suitable for heavy use environments. Reduced breathability. European raw hides, chrome tanned in Italy. Blaue Engel Eco-Label.
