PRESS RELEASE  
FEBRUARY 2018

## NEWS:

### EVE – A WOODEN LOUNGE CHAIR

**Fredericia presents Eve designed by Timo Ripatti - a new lightweight lounge chair that blends elegance, comfort and durability; making it the perfect choice for a variety of settings - from residential homes and professional workspaces to luxurious hotels.**

Eve is a lightweight wooden lounge chair in an aesthetically intriguing design that combines a wooden ring with a moulded wooded seat, resulting in a genuinely iconic appearance. The exposed construction reveals an intelligent utilisation of the materials, providing a durable structure as well as comfortable ergonomics. The elegance of the chair borders both contemporary and classic design and can easily be combined with a loose cushion or a fur throw to create a softer and warmer appearance. Eve can also stand alone as a showpiece of industrial excellence.

#### **Award-winning design**

Before its launch, Eve won the prestigious Lexus Design Award when the prototype first was presented in 2013. The jury stated that Ripatti tailors his use of wood in a way that makes simplicity consummate to the design, while the chair is both beautiful and comfortable to sit in.

Eve is available with upholstery.

#### **Designer's quote**

"The Eve lounge chair combines 50s modernism, contemporary design and traditional craftsmanship with the latest technological manufacturing methods. These key elements ensure the superb quality and the long-lasting lifecycle of the chair."  
– Timo Ripatti

**Eve chair is available from May 2018.**
