PRESS RELEASE  
FEBRUARY 2017

## NEWS:

### YKSI – A WOODEN LIGHTWEIGHT CHAIR

Fredericia presents Yksi designed by Thau & Kallio – a new wooden chair that embraces all lovers of Scandinavian design with its sophisticated and tight appearance; infusing the chair with character while being surprisingly comfortable at the same time.

At first glance, the design of Yksi, which means no. 1 in Finnish, seems quite well known, yet it is completely new and unique when studying it closer. The daring construction features two pairs of legs that unite in an upside down Y-shape to form a single point support for the back and armrest, which almost appears to be hovering above the seat. This structure makes the chair surprisingly light – both visually and in terms of weight.

Yksi is available with a comfortable seat upholstery and two chairs can be stacked for compact storage making it a perfect choice from residential homes and professional workspaces to cafes and restaurants.

#### Designer's quote

"We created Yksi on the basis of the very best craftsmanship aiming to optimize the design and aesthetics of a classic "chair" to the simplest possible combination of the parts from which a chair is made." – Thau & Kallio

**Yksi is available from May 2018.**
